Difference in
Glass Processing
With Over Half a
Century of
Experience!**

Who Are We?

Our company that founded in the 1970s, is a well-established company that has been operating in the glass sector for over half a century. Trakya Cam, which operates in a total area of 15,000 sqm and 3 different facilities, is one of the leading names in the sector with its expertise and innovative approach in glass production. It continues to grow every day with the importance it gives to quality and customer satisfaction.

With over 50 years of experience, Trakya Cam has become a symbol of trust in the sector. We continue to strengthen our presence in both domestic and international markets by increasing our production capacity and with our customer-oriented service approach. Trakya Cam continues to be the address of quality, innovation and trust in glass production.

Our Production Areas

- Flat Glass and Laminated Glass Cutting
- Edge Machining
- CNC Machining
- Serigraph and Roller Printing
- Insulated Glass
- Laminated Glass
- Tempered Glass
- Heat-Strengthened Glass
- Bonding
- Wooden Creating

Our Machine Track

Cutting

Glass Type	Clear, Ultra-Clear, Tinted, Hard and Soft, Coated Glass, Laminated Glass
Thickness	4-19 mm
Stripping	Automatic Stripping
Max. Size	3210 x 6000 mm
Min. Size	300 x 300 mm

Edge Machining

Thickness	4-19 mm
Max. Size	2450 x 6000 mm
Min. Size	300 x 300 mm

Hole

Diameter	6-... mm
Max. Size	3210 x 6000 mm
Min. Size	300 x 300 mm

CNC

Thickness	4-19 mm
Max. Size	1550 x 2800 mm
Min. Size	300 x 300 mm

Roller Printing

Thickness	4-19 mm
Max. Size	1750 x 6000 mm
Min. Size	300 x 300 mm

Screen Printing

Thickness	4-19 mm
Max. Size	1750 x 2800 mm
Min. Size	300 x 300 mm

Insulated Glass

Covering Material	Clear, Ultra-Clear, Tinted, Hard and Soft, Coated Glass, Laminated Glass
Covering Method	Polyurethane, Silicon
Interstitial Feature	6-30 mm
Layer Feature	Aluminium, Tinted Aluminium, Warm-Edge
Gap Feature	Double, Triple, Quadruple
Glass Type	Argon or Air
Max. Size	2400 x 6000 mm
Min. Size	300 x 300 mm

Temper

Glass Type	Clear, Ultra-Clear, Tinted, Hard and Soft, Coated Glass, Laminated Glass
Thickness	4-19 mm
Temper Feature	Half Tempered, Full Tempered
Max. Size	2600 x 6000 mm
Min. Size	300 x 300 mm

Lamination

Thickness	Up to 100 mm
Vacuum Lamination	Can be made upon request.
Glass Type	Clear, Ultra-Clear, Tinted, Hard and Soft, Coated Glass, Laminated Glass
Interlayer Type	PVB, EVA, SGP, SGX
Max. Size	2600 x 6000 mm
Min. Size	300 x 300 mm
